PROTECTIVE CAPS FOR VEP-P SERIES

Protective caps are always recommended to protect the couplings from damage, dirt inclusion, and will increase the product life. This is particularly important in mobile applications where exposure to weather and aggregate materials are common.
For VEP-P two solutions are available:
• threaded aluminum cap with lanyard (standard colors: natural aluminum, other colors available upon request)
• threaded plastic cap with lanyard (standard color black).
Caps and plugs are also available without lanyard, upon request.
