Coils and Electronics
DIN Connectors

STANDARD CONNECTORS TO DIN 43650

TYPE A CONNECTOR

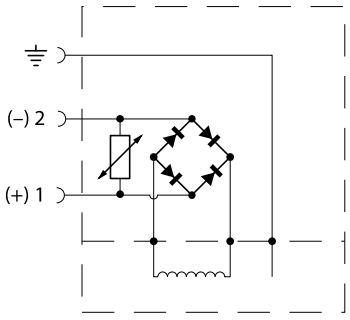

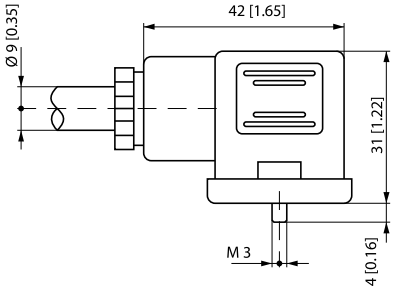

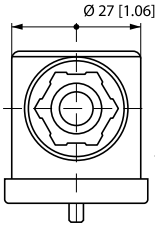

Standard connector for use with DC input.
Type A
Order no. R088010080

TYPE C CONNECTOR

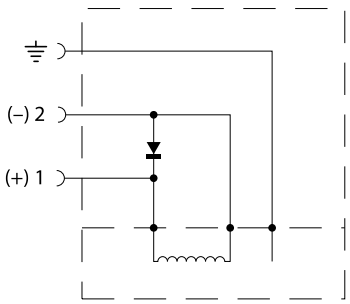

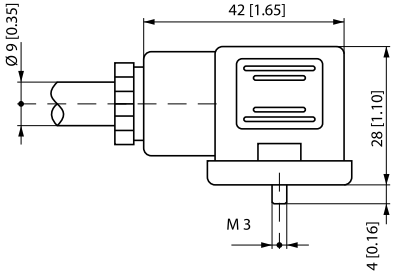

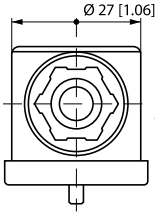

Full wave bridge rectifier with 4 diodes and VDR protecting the a.c. side against overvoltage from electrical power supply.
Type C
Order no. R088010060

TYPE E CONNECTOR

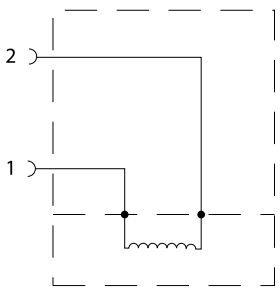

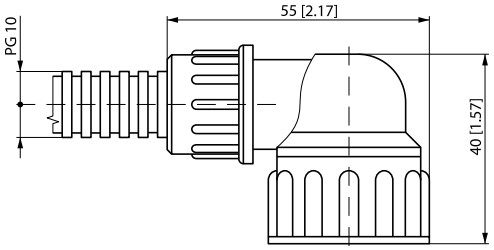

With diode blocking overvoltage on opening.
Type E
Order no. R088010410

TYPE K CONNECTOR

Standard connector to Kostal patern, for use with DC input.
Type K
Order no. R088010350

REMARK

For details of use, see technical data relevant to the individual solenoid valves. All connector are supplied unassembled. Connectors with indicator lights are available on request (Consult factory).
